GLOBAL SOURCING | SUPPLIER OPERATIONS | TRACEABILITY | DATA GOVERNANCE | AI PRODUCT STRATEGY | MANDARIN

Global sourcing and supply chain leader, **8+ years** across APAC and U.S. operations at Nike, Converse, and Disney. Builds the data layer that makes supply chains legible: **1,000+** supplier records governed into one source of truth, SAP integrated with compliance systems, and AI products shipped for traceability and procurement intelligence. Works where operations meet technology, translating between Mandarin and English, factory floor and data model, strategy and execution. Founder of WorldPulse; MS in Artificial Intelligence in Business. Current builds, writing, and work in progress at **haydenbaxter.com**.

PROFESSIONAL EXPERIENCE

WorldPulse | Founder & Product Designer — 2024–Present

> *Founder-led product venture developing Digital Product Passport and traceability technology for brands navigating product transparency, provenance, and emerging EU requirements.*

- Founded WorldPulse to bring transparency and practical business value to global sourcing through **Digital Product Passports** and supply-chain traceability.
- Design product experiences that turn complex supplier, material-origin, compliance, and ESG data into clear visual stories for brands, buyers, regulators, and consumers.
- Connect sourcing expertise, supplier-data structures, and applied AI to prototype workflows for product provenance, compliance visibility, and sourcing decisions.

Nike Inc. | Sourcing Lead (ETW via Apex Systems) — Beaverton, OR — 2023–2024

> *Global sourcing role supporting Converse's 70+ factory manufacturing network across APAC, EMEA, and North America, spanning supplier operations, factory expansion, data governance, and traceability.*

- Led global sourcing operations for Nike and Converse, onboarding **10** new Converse-exclusive greenfield factories and supporting them from construction through compliance.
- Advanced Converse's manufacturing expansion from China into **Vietnam and Indonesia**, extending the sourcing base into new countries of origin alongside **70+** existing factories worldwide.
- Led the first project to map Converse factories across EMEA, APAC, and North America, consolidating **1,000+ SAP records** and establishing governance rules that improved data accuracy **95%** and strengthened analytics readiness.
- Co-developed a Cloud Data Fusion pipeline integrating **SAP and Aravo**, delivering the work through a JIRA Epic with Nike IT, Converse IT, and Supply Chain Innovation teams to strengthen supplier data and end-to-end traceability.

The Walt Disney Company | Procurement Analyst (via Beacon Hill Staffing) — New York, NY (Hybrid) — 2022

> *Indirect procurement role supporting Disney Streaming's Latin American expansion, partnering across IT, Finance, Legal, and Creative on technology and media sourcing.*

- Collaborated with IT, Finance, and Legal to renegotiate LATAM vendor agreements during the **Star+** launch, delivering **13% annual cost savings** and strengthening SLAs to support four nines of uptime.
- Onboarded **100+ indirect vendors** through Disney's enrollment system, supporting timely activation, procurement compliance, and global streaming operations.
- Managed contract workflows with Finance, Legal, and Creative teams for strategic technology and media procurements using **Coupa, Airtable, and SAP**.

AOSOM LLC | Logistics Manager — Beaverton, OR — 2020–2022

> *E-commerce logistics and operations role during a period of rapid warehouse expansion, connecting U.S. fulfillment operations with AOSOM's China-based organization.*

- Managed **8 coordinators and 4 managers** during a **300% warehouse expansion**, training teams in inventory optimization, logistics workflows, and ERP/WMS systems.
- Managed the **Wayfair** account, overseeing **$800,000** in product forecasting, sales, inventory planning, and 3PL storage operations while serving as translator and liaison for the Chinese team.
- Supported delivery of **$100M+** in inventory through daily online-channel monitoring and end-of-day warehouse audits.

Three Tree LLC | **Procurement Agent** Logan, UT & Guangdong, China **2016–2020**

> *Cross-border sourcing role connecting U.S. buyers with manufacturers in southern China, with direct involvement in supplier identification, factory engagement, negotiation, and production coordination.*

- Negotiated and closed high-volume product deals between U.S. clients and Chinese manufacturers, leading **RFPs** and supplier scorecard evaluations to drive cost savings and quality assurance.
- Coordinated international sourcing through the **Canton Fair** and Alibaba, aligning design specifications with production capabilities across a vetted vendor network.
- Conducted factory audits and site visits throughout China to improve vendor accountability, strengthen compliance, and support end-to-end traceability.

SELECTED AI APPLICATIONS - DESIGNED & BUILT

haydenbaxter.com/emerging-tech-builds

- **ProcureBridge** - Built supplier-scoring and procurement-intelligence workflows that unify fragmented purchasing data.
- **Cortex** - Built source-backed AI connecting evidence, claims, and narrative output for editorial research.
- **CaseBrief** - Built source-backed medical-record review that assembles injury case narratives for legal teams.
- **AtomicOS** - Built a natural-language operating system tracking energy, focus, execution, and behavior data.
- **OpenClaw** - Built agentic workflows that turn rough concepts into working internal tools.

EDUCATION

Master of Science, Artificial Intelligence in Business | **Arizona State University** | **May 2025**
GPA 3.8 / 4.0 · AI Strategy, AI Applications in Supply Chains, Machine Learning, Python

B.S. Global Business | **B.A. Mandarin Chinese**, *summa cum laude* | **Utah State University** | **2020**
GPA 3.8 / 4.0 · USU China Global Business Cooperative Scholarship
